

PRESS RELEASE

15th March 2024

IRClass Systems and Solutions Pvt Ltd launches a suite of sustainability services

IRClass Systems and Solutions Pvt Ltd (ISSPL), through its division – Indian Register Quality Systems, a leading provider of management systems certification services, has announced the introduction of a pioneering initiative aimed at advancing environmental responsibility across maritime and non-maritime sectors. This comprehensive suite of sustainability services encompasses ESG (Environmental, Social, and Governance) and GHG (Greenhouse Gas) verification, validation, training, and certification, marking a significant milestone in its commitment to promoting sustainability.

These services aim to assist diverse stakeholders in understanding, implementing, and adhering to sustainability standards and regulations. By offering verification, validation, and certification services, ISSPL-IRQS ensures that sustainability efforts are credible, transparent, and compliant with industry norms and regulatory mandates.

Commenting on the initiative, Mr. Vinay Kshirsagar, Director at ISSPL, stated, "Our new suite of sustainability services underscores our dedication to driving positive environmental outcomes. By providing stakeholders with assurance and expertise, we empower them to embrace sustainable practices and navigate the complexities of sustainability standards and regulations."

In addition to verification and certification services, ISSPL-IRQS offers comprehensive training programs designed to enhance the expertise and capabilities of professionals across various disciplines. These programs enable professionals to integrate sustainability considerations into their daily operations and decision-making processes effectively.
