
IRClass Systems and Solutions Pvt Ltd unveils Digital Centre for technology solutions

To offer Cybersecurity, Digital Forensics, IoT/OT Testing Lab and AI services

IRClass Systems and Solutions Pvt Ltd (ISSPL), announces the launch of a Digital Centre to offer a wide range of technology solutions. The Digital centre, located in Mumbai, was inaugurated by Chairman of ISSPL – Mr. Arun Sharma.

The Digital Centre will provide a comprehensive suite of services to help organizations navigate the digital landscape across maritime and non-maritime sectors.

ISSPL recognizes the critical importance of cybersecurity in today's digital landscape. The company's new cybersecurity services offer tailored solutions to safeguard organizations from evolving cyber threats which include vulnerability scanning and penetration testing. The centre also includes an Internet of Things (IoT)/ Operational Technology (OT) testing lab and will offer services like digital forensics, AI, ML, and blockchain.

At the launch event, Mr. Arun Sharma, Chairman of ISSPL, said 'The ISSPL Digital Centre serves as a comprehensive cybersecurity solution for all maritime and non-maritime needs. With a commitment to excellence and customer satisfaction, ISSPL aims to be the trusted partner for organizations seeking to confidently navigate the digital landscape.'
